**BEIJING
FORESTRY
UNIVERSITY**

Beijing Forestry University is a national key university under the direct administration of the Ministry of Education and jointly established by the Ministry of Education, the National Forestry and Grassland Administration, and the Beijing Municipal Government.

Drawing on its solid foundation in biology and ecology, Beijing Forestry University prides itself, particularly on its distinctive disciplines such as forestry, landscape architecture, ecology and nature conservation, grass science, and agro-economic management. The University also stresses the balanced and coordinated development of programs in agriculture, science, engineering, management, economy, law, philosophy, education as well as arts.

Beijing Forestry University is building strong international partnerships through direct student and faculty engagement, collaborative projects, and scholarship that spans traditional boundaries. We proudly welcomed undergraduate, graduate, and non-degree program students from about 70 countries. We are committed to welcoming international students and scholars who bring diversity, new perspectives, and innovative ideas into its classrooms, laboratories, and campus life.

The International College at Beijing Forestry University presents a comprehensive 32-week Chinese Language Program tailored to accommodate students at both entry and medium language proficiency levels.

ABOUT THE PROGRAM

Chinese Language Program

This program has been thoughtfully designed to equip students with proficiency in the Chinese language while also deepening their understanding of Chinese culture. Students will engage in intensive language training, allowing them to progress from their respective entry or medium language levels. The program is accommodating to learners with diverse language backgrounds and skills.

During this 32-week journey, students will have the opportunity to explore the rich world of Chinese culture, gaining insights into China's history, traditions, and modern way of life. This holistic approach ensures that students gain a well-rounded understanding of the language and culture.

Our Chinese Language Program offers an engaging voyage that not only enhances students' language proficiency but also fosters a deeper cultural understanding. Whether your aspirations lie in academia, diplomacy, research, business, or any field connected to China, fluency in the Chinese language and cultural insight are essential for unlocking a wide range of educational and career opportunities.
